

Maia Neguembor

Profile

I am a Swedish-Argentinian Cambridge A-levels graduate living in Fuengirola with professional experience in the specialty food industry, including working at a gluten-free bakery.

Growing up in Sweden, then in Malta, and now in Spain has given me a unique perspective on different cultures and the ability to collaborate and connect with people from diverse backgrounds. My academic achievements have also provided me with a broad understanding of the business world from two distinct cultural perspectives.

My experience at the bakery enhanced my organisational skills, attention to detail, and understanding of dietary needs, further strengthening my ability to meet customer expectations and maintain high-quality standards.

Others describe me as calm, friendly, empathetic, reliable, and motivated. I approach everything with enthusiasm, focus, and commitment.
